

**Senior Design Project Team Inventory**  
**Project Code: 03- FA25-SP26-PSL-HW**  
**September 1st , 2025**

**Prepared for:**

Asaph Cousins

**Prepared by:**

Matthew Heseltine

Wesley Skywalker

**Mentored by:**

Parteek Kumar

Dear Asaph Cousins,

We are writing this to introduce ourselves as the students who will be working with you on the photosynthesis lab project. We both are very eager to learn more about the specifics of the task and to put what we've learned over the years in the EECS department to work. Our team not only has skills which are very relevant to the project but also an interest in the horticultural nature of the data we will be engaging with. We are very excited to finally be working with real clients on a real project and thank you for giving us the opportunity to do so.

Below you will find some information about the two of us such as technical skills and relevant experiences.

Matthew S. Heseltine ([matthew.heseltine@wsu.edu](mailto:matthew.heseltine@wsu.edu))

Major: Computer Science

Hometown: Puyallup, WA

Education: Senior at Washington State University

Skills:

Languages: C, C++, C#, python

Web Development: HTML, CSS, JavaScript, Node.js, React.js

Databases: SQL, SQLite

Other Skills: SFML, pygame

Skywalker Wesley ([skywalker.wesley@wsu.edu](mailto:skywalker.wesley@wsu.edu))

Major: Computer Science

Minor: Mathematics

Hometown: Camano Island, WA

Education: Senior at Washington State University

Skills:

Languages: Java, C#, Python

Databases: SQL, MongoDB, Hadoop
